# LET'S PLAY CANBERRA POKER

*There's a reason casino chips are often referred to as poker chips: for 200 years, it's been the ultimate betting card game.*

*For a simpler version that's easy to jump in and out of, Canberra Poker is our one round variant where players compete against the Dealer instead of each other.*

## CANBERRA POKER

Canberra Poker is played with a standard 52 card deck and offers a simpler alternative to the more intense poker played in our Lotus Room. Like some of the more traditional table games, all cards are dealt in one round and players directly compete against the Dealer.

### HOW TO PLAY

- ◇ After placing an initial stake (ante) in the marked area, players receive five cards face down.
- ◇ The Dealer receives four cards face down and one face up.
- ◇ You can now pick up your cards and make the decision to bet, by placing a wager equal to double your ante, or to fold. If you fold, your ante is lost, and your cards are removed from play.
- ◇ Once all players have acted, the Dealer reveals their hand:
  - ◇ If the Dealer's hand does not have an Ace and a King or higher, the Dealer does not 'qualify' and they will immediately pay out all antes at 1:1.
  - ◇ If they do qualify, the Dealer compares your hand to theirs. If you beat the Dealer's hand, your bet is paid at the odds determined by the hand (see table below) and the ante is paid even money.
  - ◇ If the Dealer wins, you lose both ante and bet.
  - ◇ If there's a tie, all bets and antes are returned to players.
- ◇ Cards are shuffled and a new round of play begins.

## *Buying Chips*

Bets at the Casino are made with Casino chips. You can purchase these at any of the gaming tables. Simply place the amount you wish to play (notes only) on the table and the Dealer will pass you the equivalent in chips. Their value is clearly printed on each face. You can redeem your chips for cash at the Cashier's window at any time.

## *Ask any time*

Our friendly staff are always happy to answer your questions about any of the games we play. Once you get started, feel free to ask your Dealer if you need to know more.

The Dealer's role is to manage the game and assist you with any queries you might have, however they cannot advise you on what to do.
